## 1. PRODUCT AND COMPANY IDENTIFICATION

**Product Name**: MX-51NT-BA/MX-51GT-BA/MX-51FT-BA
MX-51AT-BA/MX-51BT-BA (Black Toner)

**Supplier Identification**: Sharp Corporation
22-22 Nagaike-cho, Abeno-ku, Osaka, Japan

Local suppliers are listed below. Please contact the nearest supplier for additional information.

3. HAZARDS IDENTIFICATION

**Most Important Hazards and Effects of the Products**

**Human Health Effects:** There are no anticipated carcinogenic effects from exposure based on animal tests performed using toner. When used as intended according to instructions, studies do not indicate any symptoms of fibrosis will occur.

**Environmental Effects:** Not toxic to aquatic organisms

**Specific hazards:** Dust explosion (like most finely divided organic powders)

**Directive 1999/45/EC (Europe):** Not classified as dangerous

**Australian Information:** Not classified as hazardous according to criteria of NOHSC.

4. FIRST-AID MEASURES

**Route(s) of Entry:** Inhalation? Yes, Skin? No, Ingestion? Possible but very unusual.

**Inhalation:** Remove to fresh air. If symptoms occur, consult medical personnel.

**Skin Contact:** Wash with soap and water for 15 minutes or until particle is removed.

If irritation does occur, consult medical personnel.

**Eye Contact:** flush eyes immediately with water for 15 minutes. If irritation does occur, consult medical personnel.

**Ingestion:** Rinse with water and drink several glasses of water. If irritation or discomfort does occur, consult medical personnel.

5. FIRE –FIGHTING MEASURES

**Extinguishing Media:** Water, CO₂, foam and dry chemicals

**Special Fire fighting Procedures:** None

**Fire and Explosion Hazards:** Toner material, like most finely divided organic powders, may form an explosive mixture.

6. ACCIDENTAL RELEASE MEASURES

**Personal Precautions:** None

**Environmental Precautions:** None

**Methods for Cleaning Up:** Wipe off with paper or cloth. Do not use vacuum cleaner when a large amount is released. It, like most finely divided organic powders, is capable of creating a dust explosion.
7. HANDLING AND STORAGE

Handling
Technical Measures : None
Precautions : None
Safe Handling Advice : Use of a dust mask is recommended when handling a large quantity of toner or during long term exposure, as with any non-toxic dust. Try not to disperse the particles.

Storage
Technical Measures : None
Storage Conditions : Keep container closed and Store in a cool and dry place.
Keep out of the reach of children.
Incompatible Products : None

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Engineering Measures
Ventilation : Not required under intended use.

Exposure limit values
OSHA-PEL(USA) : 15mg/m³ (Total Dust) , 5mg/m³ (Respirable Dust)
ACGIH-TLV(USA) : 10mg/m³ (Total Dust) , 3mg/m³ (Respirable Dust)

Personal Protective Equipment
Respiratory Protection : None required when used as intended in Sharp equipment.
Hand Protection : None required when used as intended in Sharp equipment.
Eye Protection : None required when used as intended in Sharp equipment.
Skin Protection : None required when used as intended in Sharp equipment.
Other Protective Equipment : Use of a dust mask and goggles are recommended when handling a large quantity of toner or during long term exposure, as with any non-toxic dust.

9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance
Physical State : Solid
Form: Powder
Color: Black
Odor: odorless

Ph : Not applicable
Boiling/Melting Point : Not applicable
Softening Point(°C ) : 100 - 130
Flash Point(°C ) : Not applicable
Ignition Point(°C ) : No data
Explosion Properties : No data
Density(g/cm³) : Approx. 1.1 (bulk density : Approx. 0.4)
Solubility in water : Negligible

10. STABILITY AND REACTIVITY

Stability : Stable
Hazardous Reactions : Dust explosion, like most finely divided organic powders.
Conditions to Avoid : Electric discharge, throwing into fire.
Materials to Avoid : Oxidizing Materials
Hazardous Decomposition Products : CO, CO₂ and NOₓ
Further Information : None
11. TOXICOLOGICAL INFORMATION

Acute Toxicity
- Ingestion (oral): LD_{50}>2000mg/kg (Rats)
- Inhalation: LC_{50}>5.00mg/l (Rats, 4hr)
- Eye irritation: Not an irritant (Rabbits)
- Skin irritation: Not an irritant (Rabbits)
- Skin sensitizer: Not sensitized

Mutagenicity: Negative (Ames Test)

Carcinogenicity: In 1996 the IARC reevaluated carbon black as a Group 2B carcinogen (possible human carcinogen). This classification is given to chemicals for which there is inadequate human evidence, but sufficient animal evidence on which to base an opinion of carcinogenicity. The classification is based upon the development of lung tumors in rats receiving chronic inhalation exposures to free carbon black at levels that induce particle overload of the lung. Studies performed in animal models other than rats did not show any association between carbon black and lung tumors. Moreover, a two-year cancer bioassay using a typical toner preparation, where carbon black is bound in a resin matrix, demonstrated no association between toner exposure and tumor development in rats.

Chronic Effect: In a study in rats of chronic inhalation exposure to a typical toner, a mild to moderate degree of lung fibrosis was observed in 92% of the rats in the high concentration (16mg/m³) exposure group, and a minimal to mild degree of fibrosis was noted in 22% of the animals in the middle (4mg/m³) exposure group, but no pulmonary change was reported in the lowest (1mg/m³) exposure group, the most relevant level to potential human exposures.

12. ECOLOGICAL INFORMATION

Ecotoxicity: On available data, toner is not harmful to aquatic organisms

13. DISPOSAL CONSIDERATIONS

Waste from residues: Waste material may be dumped or incinerated under conditions which meet all federal, state and local environmental regulations.

Contaminated Packaging: Waste may be disposed or incinerated under conditions which meet all federal, state and local environmental regulations.

14. TRANSPORT INFORMATION

UN Classification: None
Not classified as hazardous for transport.
15. REGULATORY INFORMATION

US Information
TSCA (Toxic Substances Control Act): All chemical substances in this product comply with all applicable rules or order under TSCA.
SARA (Superfund Amendments and Reauthorization Act) Title III
302 Extreme Hazardous Substance: None
311/312 Hazard Classification: None

EU Information
1999/45/EC and 67/548/EEC
Symbol & Indication: Not required
R-Phrase: Not required
76/769/EEC: All chemical substances in this product comply with all applicable rules or order under 76/769/EEC.

16. OTHER INFORMATION

NFPA Rating (USA): Health=1 Flammability=1 Reactivity=0
WHMIS Legislation (Canada): This product is not a controlled product.

References

The information on this data sheet represents our current data and best opinion as to the proper use in handling of this product under normal conditions. However, all materials may present unknown hazards and should be used with caution. Although certain hazards are described herein, we do not guarantee that these are the only hazards which exist.
